

How to Install School Printers on BYOD macOS For Students

Students can now install school-based printers on their BYOD Mac (Bring your Own Device) devices without visiting the IT Support Kiosk. You must be at school & connected to the eduSTAR WIFI to complete this process.

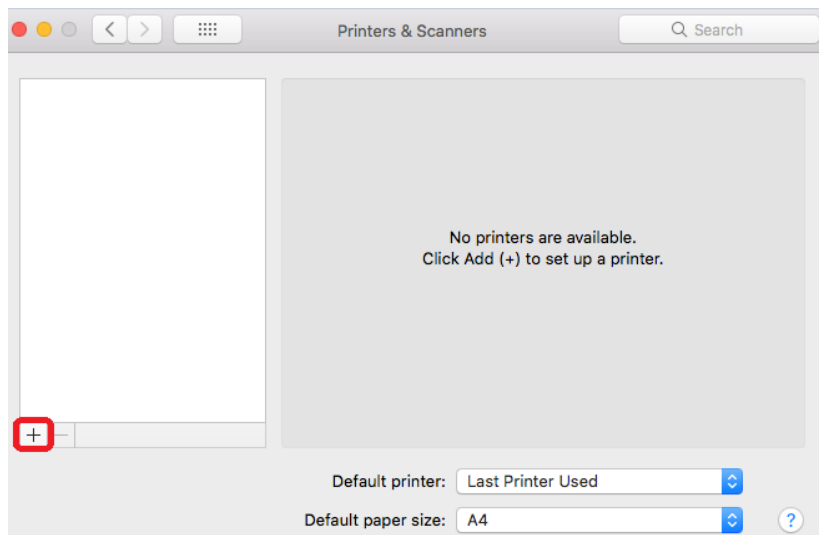

1. Go to Apple icon > System Preferences

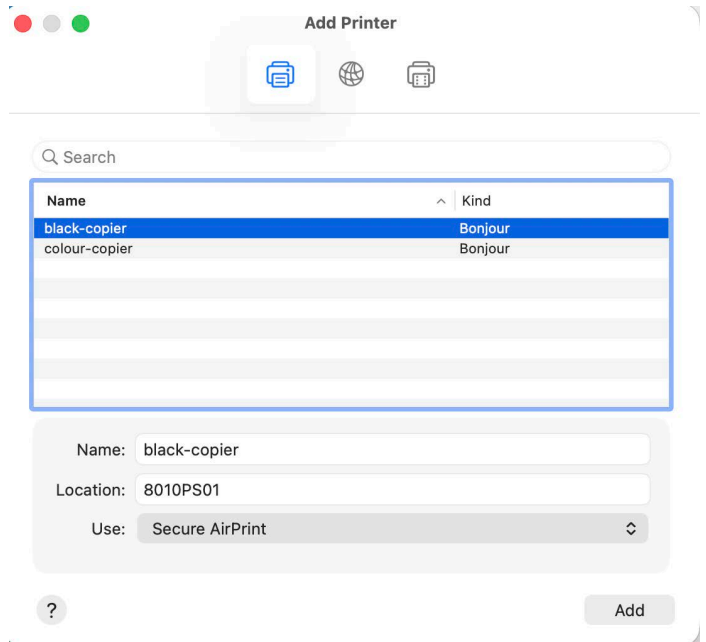

2. Select "Printers & Scanners"

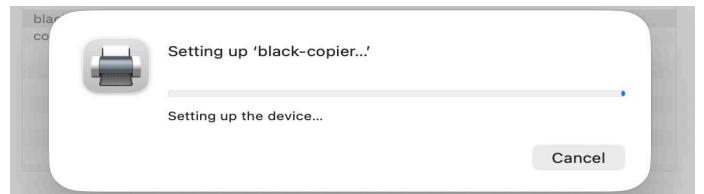

3. Click the + button

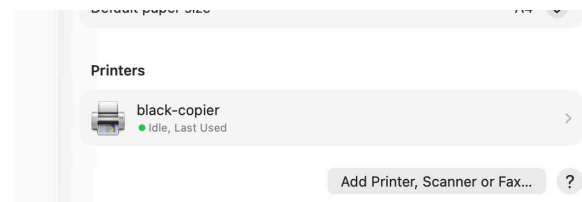

4. Select "Black-Copier" & "Colour-Copier" from the printer list > Then Click "Add"

5. Wait for the Printer to be setup on your device

6. When the printer is ready it will appear as "Idle" with a green dot

7. Send a print job to the black-copier printer and you see a login box pop up.

You must use the following:

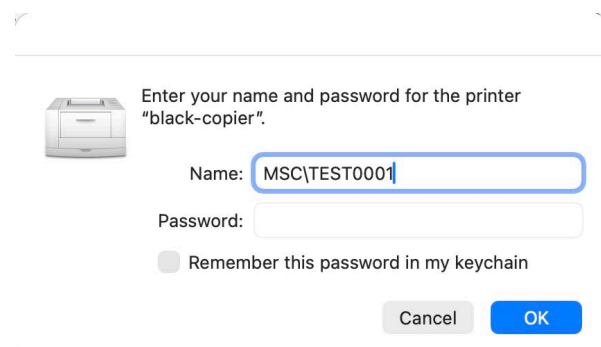

Name: Compass Username

Password: Compass Password

Tick the box "Remember this password in my keychain"

Click "OK"

You will need to repeat this process for each printer added.

IF YOU DO NOT COMPLETE STEP 7 CORRECTLY YOUR PRINTING WILL NOT WORK
